

WELCOME TO
SBARC'S
GENERAL
ANNOUNCEMENTS
WEB PAGE !!!

.
.
.
This page will contain the same announcements that Dave, K6HWN, and others, regularly read on the air, but with this service you may read or re-read them as often as you see fit.

.
Each message will contain a header which will tell you when it was posted on this section of SBARC's web page.
.

From time to time, old messages will be removed and of course new ones will be inserted as they become available.

.
New messages will be listed at the top of the page. That way you only have to read down to where you left off reading the last time you downloaded this file.

.
Dave, K6HWN, will write up and control the messages. "Jug", WA6MBZ, will post new messages and remove old ones according to Dave's instructions.

.
If, for instance, the content of a message is wrong or misleading, contact Dave at 805-898-0644.

.
If, however, you find some "typos", please contact "Jug", WA6MBZ, at wa6mbz@yahoo.com with the problem you have found.

Message 2012-0020 - 2012-02-21 - 0800

YARD SALE BY KEITH, KI6HLD,
SATURDAY FEB 25TH, 9 AM TO 1 PM:

.
Keith lives at 7336 Elmhurst Place, off of Cannon Green near Costco.

.
He has a Skyraider tube type receiver from the 1930s. It does not work but it comes in a nice cabinet. He also has a number of Ham Radio Related items which will be on sale that day. Feel free to come by and see.

.
TOUR OF THE EAST END OF SANTA CRUZ ISLAND IS BACK ON.

- .
A) New date is Saturday, March 24th, 2012.
B) Contact Michael Taylor, WA6RQV, at his email: mst56@yahoo.com for reservations and car pooling info.
C) Cost is \$70.00 person with about \$20 going to to the Club Station. There is 20 spaces max. available.
D) The boat leaves from Ventura Harbor at 0800 hours. Boat is via Island Packers, and it will land at Scorpion Harbor on the Island.
E) Make checks payable to Ken Owen. Your reservation is not confirmed until your check has been received.
F) The trip will be led by Ken Owen of Channel Islands Restoration.

Message 2012-0013 - 2012-02-02 - 0800 hours.

.
SBARC NOW HAS A CLOUD SERVER:

.
SBARC members will now have access to a cloud server on the internet. This server will contain files that are pertinent to SBARC's existence and operations.

.
Contact Tom Saunders, tsaund@cox.net, for more information.

Message 2012-0011 - 2012-01-30 - 0800 hours.

.
RADIO TRAINING CLASSES:

.
On Saturdays, after third Fridays and club meetings, the Club Station will be dedicated to training operators in the intricacies of tuning and operating a number of the radios at the club station.

.
However, priority will be given to supporting event communications.

.
Training can be conducted at other times depending on desire, time, and availability.

Message 2012-0004 - 2012-01-16 - 0800

.
LOCAL REPEATERS NEED TESTING:

.
The following SBARC repeaters could use some testing:

.
145.180 MHz., minus 600 KHz., 131.8 Hz., for
coverage with new antenna.

.
446.400 MHz. , minus 5 megs, 131.8 Hz., for
functionality of the IRLP nodes system.

.
51.820 MHz., minus 500 KHz., 82.5 Hz., for
general functionality of this single site
system.

.
You can do your testing and make your reports of
your results to the club station during operating
hours, to wit, Saturdays 9-12, and Tuesday nights
19:30 to whenever.

Message 2011-0088 - 2011-09-12 - 1000 hours.

.
THE 223.920 REPEATER IS ON LIMITED USE BECAUSE OF
BATTERY ISSUES.

.
SBARC has announced that the Santa Cruz Island repeater
on 223.920 (minus), PL 131.8 - 3B, will be available for
short QSOS until new batteries can be obtained. This
means that the remote will not be used during everyday
nets etc.

.
NEW WINSYSTEM REPEATER IN THE SB AREA:

.

Recently members of the Win System installed a new repeater on Santa Ynez Peak. It is on 145.200 MHz., minus offset. The PL tone is 100.00 Hz.

.
This is an open repeater and any licensed Ham Radio Operator is invited to join in the fun.

.
You can get more info on all of the repeaters in this system at the www.winsystem.org web page.

.
NOTE ON IMPROVED TECHNICAL/MENTORING NET:

.
The improved Technical/Elmering net is now on the air from 8 PM to 9 PM every Thursday night on 146.790, and 224.080 repeaters. We will usually do the following on every session of the net:

.
 We will take your questions, (even seemingly dumb questions are welcome.)

.
 We will have a "ham question" of the week.

.
 We can present 15 minute talks of general interest.

.
C.I.R. WEB SITE:

.
Ken Owen, N6KTH, has built a great web site and it contains a good deal of weather information and links. You can visit this site at www.cirweb.org/weather and click on any of the various links for further information.
